Java, Swift, C, C++, Flutter

LANGUAGES

Uzbek: Native
English: Basic
Korean: Fluent
Turkish: Intermediate

DANNY

Kuvonchbek

Full-Stack Developer · DevOps Engineer
AI Engineer · Agentic AI Developer

Building scalable web platforms and practical AI solutions.

Builds across React and Next.js interfaces, NestJS and FastAPI services, and deployment workflows. Combines frontend and backend delivery with practical Cursor and Codex development workflows.

01 EXPERIENCE / 4 YEARS 9 MONTHS

NOVASTACK TECHNOLOGIES

Full-Stack Developer 2024.09 - 2026.08

- Built and operated Next.js, NestJS and FastAPI platforms with REST and GraphQL services.
- Developed reusable React components and applied Redis caching to support API performance.
- Used Cursor and Codex for implementation and refactoring; supported Docker, Terraform and CI/CD workflows.

LUMEN SOFTWARE LAB

Backend Developer 2021.01 - 2022.09

- Collaborated on REST API integration and data exchange between frontend and backend services.

NESTTECH DIGITAL

Frontend Developer 2019.10 - 2020.09

- Developed responsive React applications, reusable UI components and API integrations with Redux or Context API.

02 SELECTED WORK

HaDiJaM

Marketplace and services: private chat, seller onboarding and GraphQL APIs.
